- Experience

Futury - UX & UI Designer Oct 2020 - Present, Frankfurt.

As one of the co-founders of **Optimo**, I worked on the design and development of the product, aiming to bring sustainability inside the clients, with a social and economic impact. Optimo is a startup that integrates micro-learning into the daily life of blue-collar workers.

Philips - UX Designer Feb - Aug 2020, Amsterdam.

Internship designing a tool to track the team mood, and generate a visual interface to interact with the outcome. Some of the tools I used: ReactNative, Framer X and Invision. Also, I develop an Arduino toolkit testing prototype.

Slush - Volunteer Dec 2019, Helsinki.

Volunteer assisting to the organization and helping the guests during the event.

Everis - Full-Stack DEV. Sep 2017 - Aug 2018, Madrid.

Internship developing and designing a web app application for the client, **Grupo IFA**, and migrating all data to a new database. Some of the tools I used: Oracle, SQL, JavaScript, CSS and HTML.

- Achievements
